

GWYDIR
SHIRE COUNCIL

FREIGHT ROUTE SURVEY

Council is continuing our work to prioritise the maintenance of regional roads across the Gwydir Shire. This ongoing project commenced in 2022 and has provided invaluable data to inform Council road works maintenance and upgrades.

We are now seeking your help to provide feedback on property production levels and freight routes to help improve road prioritisation decisions.

OVERVIEW

Gwydir Shire Council is committed to ensuring the region has a sustainable, resilient, and efficient road network that can respond to the community's needs responsibly, effectively, and considerately.

We want to hear from you to help inform how we prioritise our road maintenance using the finite resources available.

This feedback, among other factors, will enable us to plan ahead and provide maintenance, upgrades and improvements to roads in priority order.

WHAT IS THE PURPOSE OF THIS SURVEY?

This survey will provide data to help Gwydir Shire Council make informed decisions about allocating our limited resources to address the most critical needs across our road network.

Fill in the survey for your chance to win:

- 2 x \$5,000 fuel vouchers
- 5 x \$100 IGA vouchers

HOW CAN I BE INVOLVED?

SURVEYS

To gain a more detailed understanding of community feedback, we have prepared location-based surveys for you to complete.

The purpose of this approach is to make it easier for you to give feedback on the roads you use the most. You are welcome to complete more than one location-based survey if you desire.

HAVE YOUR SAY

Accurate data on road usage and needs is essential for infrastructure planning in our region. Your feedback will directly influence how we prioritise future road maintenance and improvement projects. For providing this valuable information, Council will provide two random survey participants with a \$5,000 fuel voucher and five random survey participants with a \$100 IGA voucher.

*Check FAQs for incentive eligibility criteria and the Terms and Conditions.

Have your voice heard! Help us prioritise your road needs by speaking up.

We want to hear from you to help the Council plan and prioritise future infrastructure maintenance and improvement. Please share your feedback and experiences with the road network by visiting the project website and completing the short survey.

Now is the chance to speak up and assist us in creating a connected and safe road network!
